

Signal Isolator

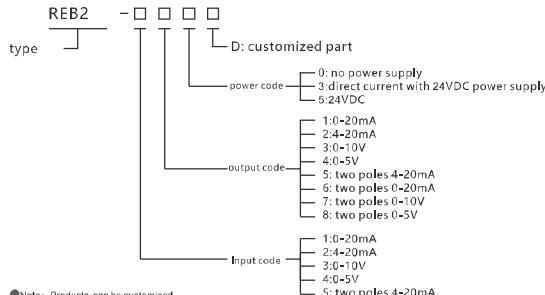

Overview

It is applicable for accurately converting analog signals, reliable electrical isolation, and providing sensor power distribution to ensure accurate and reliable transmission of various control loop signals. Our REB2 series isolators are used reliably in various industries for many years and have been widely recognized by the customers. The product has the following advantages:

- > Easy installation and disassembly, used with 35mm din rail.
- > Moisture-proof, salt spray prevention, mildew proof function.
- > Short-circuit protection at the output.
- > Unique circuit shielding method, strong interference suppression ability.
- > Conforms to RoHS standards.

Model Implication

Parameters

Input

Nominal value	Voltage: 0~75mV, 0~5V, 0~10V, 0~300V; current: 0~20mA, 4~20mA
Continuous input capability	120% nominal value

Resistance	Current input $\leq 20\Omega$, voltage input $\geq 100k\Omega$
------------	-----------------------------------------------------------------

Feature

Accuracy grade	$\pm 0.1\%$ F.S (23°C)
Temperature drift	$\leq 80\text{ppm}/^{\circ}\text{C}, \text{F.S}$
	$\leq 100\text{ms}$
Insulation resistance	$\geq 100M\Omega(500\text{VDC}\cdot1\text{min})$
Power-frequency withstand voltage	2kV/50Hz $\cdot1\text{min}(\text{Input}-\text{Output})$ 2kV/50Hz $\cdot1\text{min}(\text{Input}-\text{power supply})$ 2kV/50Hz $\cdot1\text{min}(\text{Output}-\text{power supply})$
EMC standard	GBT17626 IEC61326

Output

Analog output	4~20mA, 0~20mA, 0~5V, 0~10V
Load	Current output: $\leq 600\Omega$; voltage output: $\geq 10k\Omega$
Output protec	short-circuit protection, open-circuit protection
Max. output current	25mA

Power supplies

Rated voltage	24VDC	15~60VAC/DC
Voltage range	24VDC $\pm 20\%$	15~60VAC/DC
Power consumption	$\leq 3\text{W}$	$\leq 3\text{VA/W}$

REB2 SERIES SIGNAL ISOLATOR

Temperature

Working ambient temperature	-25°C~+60°C
Storage temperature	-40°C~+85°C
Relative humidity	5%~90%(No condensation or freeze); When temp. is between +40°C and +55°C, relative humidity should be no more than 50%.
Atmospheric pressure	80 kPa~110 kPa, altitude within 2000m.

Appearance

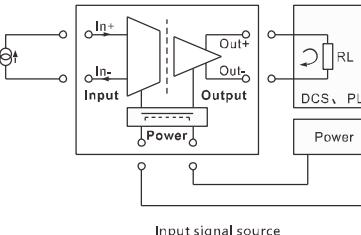

Installation way	32/35mm din rail
Dimension(W/T/H)	102/12.5/108mm
Weight	150g
Tightening torque	0.4N·m

Specification

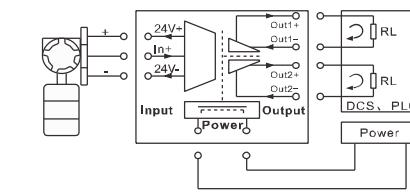

Ordering data

Type	Input signal	Output	Auxiliary power supply	Order No.
REB2-223	4~20mA	4~20mA	24VDC $\pm 20\%$	763245
REB2-233	4~20mA	0~10VDC	24VDC $\pm 20\%$	763246
REB2-243	4~20mA	0~5VDC	24VDC $\pm 20\%$	763247
REB2-213	4~20mA	0~20mA	24VDC $\pm 20\%$	763244
REB2-323	0~10VDC	4~20mA	24VDC $\pm 20\%$	763249
REB2-335	0~10VDC	0~10VDC	24VDC $\pm 20\%$	763250
REB2-313	0~10VDC	0~20mA	24VDC $\pm 20\%$	763248
REB2-223D	4~20mA	4~20mA	24VDC $\pm 20\%$	763276
REB2-253	4~20mA	Two poles 4~20mA	24VDC $\pm 20\%$	763264
REB2-353	0~10VDC	Two poles 4~20mA	24VDC $\pm 20\%$	763268
REB2-453	0~5VDC	Two poles 4~20mA	24VDC $\pm 20\%$	763276
REB2-252	4~20mA	Two poles 4~20mA	15~60VAC/DC	763272
REB2-352	0~10VDC	Two poles 4~20mA	15~60VAC/DC	763273
REB2-452	0~5VDC	Two poles 4~20mA	15~60VAC/DC	763274
REB2-550	Two poles 4~20mA	Two poles 4~20mA	No	763099
